For children covered by Medicaid's Fee for Service program, the department will reimburse providers participating in the Partnership Access Line (PAL) program for a peer-to-peer phone contact.

This fee is only available to providers who discuss the clinical management of a child, who has a mental health condition, with a PAL pediatric psychiatrist at Seattle Children's Hospital. Participation in the PAL program will be confirmed.

Please bill for this service under the coverage for the child discussed using a HIPAA compliant 837P transaction, the Direct Data Entry (DDE) system, or a paper CMS1500 claim form with this CPT code and modifier: 99499-HE. Reimbursement is limited to one per child per day.
